The year 1850 may be described as the armost account with a heavy stone career, says the Pull Mail Endyctor in it he was married published - in Memortam," and was made Peet-laurente. His marriage took place on June 12, at Shipinke, Oxfordshire pin that is used for pastry, because the hard his wife, whose acquaintonce he had arst made at Somersby, being Miss Emily Sellwood, Another Miss Sellwood married his brother Charles. Writing to his wife of Tennyson's marriage Cartyle says:

Affred looks really improved, I should say; cheerful in what he talks, and looking forward to a future less detached than the past has been. A good soul, find him where or how situated you may. Mrs. Tempyson lights up bright glittering blue eyes when you speak to her; has wir, has sense; and, were it not that she seems so very delicate in health, I should augur really well of Tennyson's adventure."

This may not seem very enthusiastic augury, but then it should be remembered with what almost unmitigated gloom carlyle had spoken of his own similar "adventure" a quarter of a century before. "I suffer considerably," he had written to his mother a week or two after his marriage, " from the agitations and disquietuge of the change." As a matter of fact it is well known that the poet's marriage proved a singularly happy one. Of that happiness the public cannot ask to know more than wont the poet himself has told them. The gilmpses thus given are among the most beautiful passages in his prems. Who does away. not know the "dedication" appended to "Enoch Arden," and addressed to-

whitest and finest quality, it should be mixed with a broad knife, as the moisture Our Wastefulness. The two chief articles of food which are wasted are bread and fat. Few of our cooks recognize the value of either of these, although the French cooks know the value of the for-

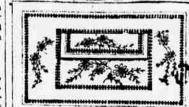

pulverized, by being rolled with a heavy stone even scratch the marble ones, and this is apto make the pastry heavy. These crumbs should be assorted and kept in bottles, brown and white bread separately, and coarse and nne crumbs also separately, and they are then ready for use when needed. The preparation is an easy matter when the cook gets into the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of collecting all the clean bits of the habit of the habit of collecting all the clean bits of the habit of the fine crumbs also separately, and they are bread and putting them to dry in the oven and enjoy athletic exercise without seeming to over night, and any leisure moment can be spent in pulverizing and sitting the crumbs.

They are used in many ways—for fried fish, ther here is aughing eyes were always bright, her lies red. her cheeks aglow with health. Her nerves were then of iron. for hams, for puddings. It is a vexation to prepare crumbs every time that they are needed; while, if bottles of chapelure are at She is attle same, yet not the same. For how her hand, of various degrees of fineness, the steps are slow and feeble, the slightest exertion dishes that require crumbs can be prepared at very short notice.

Pating Oranges.

A young lady sold that she hated oranges because one had come between her and her lover. He had called on her one evening, and after sitting awhite, had produced a couple of aching head and limbs, her back weak and pain-bright Florida oranges out of his pocket and ful and, added to all these, the tortures of suggested that each eat one. She now says female weakness. that she cannot drive out of her mind the sight of his nose, cheeks and chin dripping with juice, and he has been whispering something horribly similar about her. Evidently you cannot love a girl and a citrus aurantium at the same time. One of the best remedies of an orange-a sort of whipping the devil who, in a similar condition, would not be? around a stump—is to use a spoon. The direc-tions advise you to cut the orange carefully into halves, taking care to do so across the grain, so that a spoon can slip in readily. A gentleman who has lived for years in the American countries in which the orange grows, is waging a war against the slovenly manner of cutting the orange up and serving it on the table. In such a case he recon mends that a very sharp knife, one as keen as a razor, be used, and the fruit cut into slices infinitesimally thin, and built, layer about, with pulverized sugar. Since the spoon has been relegated out of modern dinper civilization almost, a fork is used to eat it with. In southern Europe the peasants always eat fruit in its natural snape, and never think of treating it to doses of suger. sait or other seasoning. Around Naples and in Ma-laga the people bite a hole in the orange suck but the juice and then throw the orange

"BUY OF THE MAKERS."

GEO. C. FLINT CO., 104, 106, 108 WEST 14TH ST. A Retraction. Dr. Paresis (angrily)—Look here, Dicer, I

> you wouldn't let me treat a sick cat of yours.
> Dicer-That's about what I said.
> Dr. Paresis-Well, sir, you'll have to take It back.
>
> Dicer—Very well, I will. I'd let you treat a sick cat of mine. I'm not very fond of the animal, anyhow.

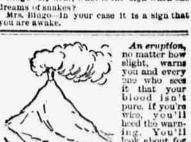

> > Recklessness.

[From Harlem Life, ]

Clara-You certainly must have some cour-

inderstand that you have been telling people

age, Charlie. You were trave enough to pro-rose to me when you had only known me three day... Charlie...If I had known you longer perhaps I should not have been. A Sure Sign. [From Smith, Gray of Co.'s Monthly, ] Bingo-My dear, what is the sign when one

you and every one who sees it that your blood isn't pure. If you're wire, you'll heed the warn-ing. You'll look about for

what you'll find: plenty of medicines advertised to purify the blood, but just one that's guaranteed—and that is Dr. Pierce's Golden Medical Discovery.

It's a medicine that does what is promised for it—that's the reason. It rousses every organ into healthy action purifies

sed for it—that's the reason. It rouses every ergan into healthy action, purifics and enriches the blood, and through it cleanses and renews the entire system. All Blood, Skin and Scalp Diseases, from a common eruption to the worst Scrotula are cured by it. For Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Enlarged Glands, Tumors, and Swellings, it's an unequaled remedy.

If it doesn't benefit or cure, in every case, you have your money back.

An eruption,
